

Figure 10. Examples of experimental data from the phase 2: **(a,b)** control measurements as 'empty sessions'; **(c)** control measurements as 'non-targeted sensors' running in parallel to experiments; **(d,e,f)** another example for environmental data as in Fig. 9; **(g)** the same as in Fig. 8 but in differential form; **(h,i)** the same experiment in linear and nonlinear regression; **(j-m)** examples of multiple sensor responses; **(n-r)** other examples.
