Rakiba Rayhana (Student Member, IEEE) received the B.Sc. degree in electrical and electronic engineering from BRAC University, Dhaka, Bangladesh, in 2015, the M.Sc. degree in electronic and electrical engineering from the University of Strathclyde, Glasgow, U.K., in 2017, and the Ph.D. degree in electrical engineering from the University of British Columbia, Kelowna, BC, Canada, in 2023.

She is currently a Postdoctoral Research and Teaching Fellow with the University of British Columbia. Her research interests include precision agriculture, Internet of Things, sensors, embedded and intelligent systems, automation, image processing, machine learning, and deep learning.

Zhenyu Ma received the B.Eng. degree in mechanical engineering from the Beijing University of Chemical Technology, Beijing, China, and the University of Detroit Mercy, Detroit, MI, USA, in 2020, and the M.A.Sc. degree in electrical engineering from the University of British Columbia, Kelowna, BC, Canada, in 2023.
